Skin Matters™ for nursing assistants

Empower your frontline team with facility-led education to train and instruct on proper skin care and safety.

Skin Matters contains eight pre-built learning modules and competency assessments, along with a skin health reference guide for the bedside.

The program features modules that can easily be shared in 15 minutes during skills fairs or CNA onboarding. Each module also includes a competency test to help measure understanding.

Modules include:

- Skin
- Keep Moving
- Incontinence
- Nutrition
- Devices
- Environment
- Empower and Educate
- Prevention

Contact your Medline Representative to learn how to empower your staff to make skin health second nature.
