Effective May 10, 2022

Dear Valued Baxter Customer,

Recent successful introduction of PRISMASATE solutions from our plant in North America have made a significant contribution to reducing backorders and satisfying demand. We have also experienced increased levels of supply of specific PRISMASOL solutions. Baxter continues to work towards increasing our supply to the US market.

We are pleased to announce that we are removing allocation from the two highest demand formulations effective immediately. We have also updated allocation on other formulations in the portfolio below. We will continue to monitor the situation and commit to keeping you updated.

<table>
<thead>
<tr>
<th>Group</th>
<th>Item Code</th>
<th>Description</th>
<th>Allocation</th>
</tr>
</thead>
<tbody>
<tr>
<td>PRISMASATE</td>
<td>106957S</td>
<td>NON PVC PRISMASATE BGK4/2.5</td>
<td>No Longer on allocation</td>
</tr>
<tr>
<td>PRISMASOL</td>
<td>110242S</td>
<td>NON PVC PRISMASOL BGK4/2.5</td>
<td>No Longer on allocation</td>
</tr>
</tbody>
</table>

The following item codes are on protective allocation at below percentage levels:
