Subject: IV Irrigation Set Allocation

Dear Valued Customer,

We are writing to inform you that due to raw material challenges from our third-party supplier, we are experiencing supply disruption on our Irrigation sets. To ensure a consistent supply, effective immediately, we are placing a 100% protective allocation on the product codes below. The 100% allocation level is based on historical ordering (November 2021 – April 2022) of each code. If you purchase through a distributor or wholesaler, the application of these allocation limits may vary. All amounts above a customer’s allocation will be cancelled during this allocation period.

Affected Irrigation Sets:

<table>
<thead>
<tr>
<th>Product</th>
<th>Description</th>
</tr>
</thead>
<tbody>

</tbody>
</table>

We understand the critical importance of supply continuity in patient care and are exploring all options to resolve the shortage, including working with our third-party supplier and assessing alternate supply options. We will continue to provide you with updates as they occur.

In the meantime, to ensure you have the information you need readily available, please visit the Supply Resources page on our website and download our Supply Availability Report to access the latest information on product supply.

Please contact your Baxter representative or the Center for Service at 1-888-229-0001 with any questions. We thank you for your continued patience.

Sincerely,

Lupe Rojas
