October 1, 2022

Dear Valued Distributor,

As we communicated in June 2022, Nestlé Health Science has discontinued the Orange flavor of BOOST Breeze® Nutritional Drink. Due to this discontinuation, the BOOST Breeze® Variety case will change from 3 flavors (Orange, Peach & Wildberry) to a **2-flavor variety case (Peach & Wildberry)**. We estimate the inventory of the 3-flavor Variety case to deplete in December 2022. The 2-flavor Variety case will be available when inventory of the 3-flavor Variety case is depleted. Please see the information below for more information.

**What changes?**
- New product code
- New case UPC code
- Now there will be 12 each of Peach and 12 each of Wildberry flavors

**What stays the same?**
- Units/case remains at 24
- Formulation of remaining 2-flavors
- Pricing
- NDC Format Number
- Case and Pallet specifications

*Effective Date is December 2022*
Discontinuation of BOOST Plus® Strawberry Flavor

Nestlé Health Science has made the decision to discontinue the Strawberry flavor of BOOST Plus® effective immediately. While we regret the inconvenience this may cause, we have listed in the chart below alternate products that clinicians can consider using.

Harmonization of Alfamino® Junior Recipes

Nestlé Health Science improved the Alfamino® Junior Unflavored recipe so both Alfamino Junior Unflavored and Alfamino Junior Vanilla will result in a similar nutrient profile. This resulted in very minor change to the amount of calories, protein, carbs, and certain vitamins and minerals to Alfamino® Junior Unflavored formula. Both formulas provide complete nutrition for children ages 1-13 years. We expect to see the improved Alfamino® Junior Unflavored in market Q4.

**What is changing**
- Minor changes to nutritional content; see Alfamino® Junior side by side comparison

**What is NOT changing**
- Volume of powdered formula
- Product codes, Case/Each UPC Codes
- Pallet configurations
- Case Pack
- Pricing
OPTIFAST® Rebranding
We will be rebranding the OPTIFAST® POST BARIATRIC CHEWABLE VITAMIN and MINERAL SUPPLEMENT back to OPTISOURCE®. Product codes will change, but the formulation remains the same. We expect the rebranded vitamins to be in the market November 2022.

What is changing
- Name
- Product codes, Case/ Each UPC Codes

What is NOT changing
- Volume of product; 120 count bottles; 12-396g bottles/case.
- Product formulation
- Pallet configurations
- Case Pack

OPTIFAST® Product Discontinued
Nestlé Health Science has made the decision to **discontinue** the OPTIFAST® products listed below. While we regret any inconvenience this announcement may cause, we have listed in the chart alternate products that clinicians can consider using.
