STAT KIT® 750-S
emergency medical kit

- Complete set of medications
- Designed to help meet accreditation standards
- Durable, secure and mobile hard-case
- Always up to date

STAT KIT® 750-S Emergency Medical Kit was designed with the needs of ambulatory surgical facilities in mind. It contains a complete set of medications and devices for basic and advanced emergencies that may arise in a surgery center setting. It contains basic and advanced airway devices, resuscitation equipment, trauma supplies, and medications for common emergencies, up to and including ACLS.

The STAT KIT® 750-S includes Banyan's KMCA Refill System, which automatically replaces medications before they expire.
The STAT KIT® 750-S is ideal for ambulatory surgical facilities. It is designed to help meet the needs of accreditation by having a comprehensive set of medications and devices for emergency medical care, and by ensuring all medications are up to date.

The STAT KIT® 750-S includes a complete set of medications to help meet accreditation requirements:

Your STAT Kit’s medications will always be up to date and ready for use.

**KMCA** STAT KIT® 750-S Emergency Medical Kits include the Keep-Me-Current-Automatic (KMCA) program, which reduces costs, maximizes medication shelf life, ensures readiness and gives you time to focus on your patients. KMCA will track the contents of your Stat Kit and automatically ship you replacement medications before they expire. With every refill, you will receive a pre-addressed envelope for safe disposal-by-mail of your unused medications. You will be invoiced for replacement medications at retail prices by Banyan.
