Personal Protective Equipment Storage & Dispensing Systems
Enhance Staff Safety and Protection
Reduce Occupational Risk
Workers in healthcare settings are exposed to a variety of blood and other bodily fluids in the course of their work. Consequently, they are at risk of infection to a number of bloodborne viruses through needlesticks and other sharps injuries, including human immunodeficiency virus (HIV), hepatitis B (HBV) and hepatitis C (HCV).¹

Choose from a variety of dispensing solutions for key areas of your facility, including nursing, patient, visitor and O.R. procedure areas.

Medline organizational dispensers help your facility promote compliance with infection control practices and safety by:
» Providing appropriate PPE to prevent exposure to infectious diseases
» Reducing clutter in high-traffic areas by mounting units on walls or doors

Let Medline be your single source for all things PPE. We not only provide a broad array of PPE dispensing solutions, we are a leading supplier of gloves, gowns, masks, eye and face shields, hand hygiene products and other protective equipment.
Select from a broad array of organizers made of a variety of materials* to fit your needs and design preferences.

*Availability of materials may vary depending on items as indicated on the following pages.
NURSING AND PATIENT UNITS.

Corridor clutter is one of the 10 most costly violations,\(^2\) as cited by the Joint Commission, and the biggest issue among hospitals in the Joint Commission’s Environment of Care (EC) and Life Safety (LS) standards.

MEDLINE: YOUR ONE-STOP PROVIDER FOR STAFF AND PATIENT PROTECTION.

Now that you have your organizers, you need to stock them with protective equipment you can count on. That’s where Medline comes through again. Medline has your staff and patients covered from head to toe with the highest quality disposable protective apparel and hand hygiene products—from gowns and gloves to footwear, headwear, face masks and hand sanitizers.

Please contact your Medline sales representative for more information about our organizers and protective equipment.
