

TRIUMPH[®] GREEN with ALOE

STERILE AND POWDER-FREE LATEX SURGICAL GLOVES

Triumph Green with Aloe Vera surgical gloves are perfect for double-gloving combined with the Triumph Micro as the overglove.

A study by the American College of Surgeons showed double gloving reduces the risk of exposure to patient blood by as much as 87% when the outer glove is punctured.* When pairing Triumph Green as an underglove to Triumph Micro, Medline's See Green for Safety system allows one to easily detect a puncture. Changing gloves immediately following the breach minimizes the risk of transmission of pathogens between the wearer and the patient.**

Healthcare providers must constantly wash their hands and wear gloves as an infection control measure. Repeated glove use and exposure to harsh chemicals can lead to dry, irritated skin. In 1999, Medline changed the industry by patenting a process to bring the moisturizing properties of aloe vera to medical gloves. Triumph Green with Aloe Vera is clinically proven to moisturize skin.***

Features and Benefits

- Excellent choice as an underglove in combination with the Triumph Micro
- Ideal for double-gloving in cardiac, trauma, orthopaedic and high-risk procedures
- Contains pure freeze-dried aloe vera to soothe and moisturize skin
- Dark green color allows for rapid detection of perforations to the outer glove
- Synthetic polymer coating for effortless damp hand donning and double-gloving
- ARC (anti-roll down cuff) was designed to reduce cuff roll-down common with most powder-free gloves
- Anatomical, curved former designed to enhance comfort and reduce hand fatigue

Specifications

- Natural Rubber Latex
- Synthetic Polymer Coating
- Green
- Smooth
- Enhanced Sensitivity 8.7 mil

TECHNICAL SHEET

TRIUMPH GREEN with ALOE

Primary Material	Low-Protein Powder-Free Natural Rubber Latex with Synthetic Polymer Coating ≤2.0 milligrams/glove of powder in accordance with ASTM D6124 and ISO 21171 Caution: This product contains natural rubber latex which may cause allergic reactions, including anaphylactic responses.
Donning Agent	Synthetic Polymer Coating (Inner surface coated for dry and damp hand donning) 100% Pure Freeze-Dried Aloe Vera Gel Coating (Moisturizes dry skin)
Color	Dark Green (Ideal as an underglove for identifying microperforations and other breaches)
Grip	Smooth (Specially treated surface allows for effortless double donning)
Former (Mold) Design	Anatomical, curved former designed to enhance comfort and reduce hand fatigue
Cuff Design	Tapered, beaded cuff design to prevent rolldown. Reinforced material prevents tearing.
Chemical Additives (Accelerators)	Zinc Diethyldithiocarbamate (ZDEC) and Zinc Dibutyldithiocarbamate (ZDBC) Residual chemical levels below detectable level according to UPB/P/003a test method
Leachable Protein (per EN455-3 using ASTM D5712 (Modified Lowry Protein Method))	Low Protein: <50 micrograms/gram of total extractable protein Caution: Safe use of these gloves by or on latex-sensitized individuals has not been established.
Thickness (per ASTM D3577 ≥ 0.10 mm)	Finger Tip 0.22 mm Cuff 0.14 mm
Cuff Length (per EN455-2 ≥ 270 mm size 7.5)	300 mm
Force @ Break Before Accelerated Aging (per EN455-2 ≥ 9 N)	Meets/Exceeds
Force @ Break After Accelerated Aging (per EN455-2 ≥ 9 N, 7 days 70°C in an oven)	Meets/Exceeds
Elongation @ Break Before Accelerated Aging (per ASTM D3577 ≥ 750%)	Meets/Exceeds
Elongation @ Break After Accelerated Aging (per ASTM D3577 ≥ 560%, 7 days 70°C in an oven)	Meets/Exceeds
Freedom from Holes (per EN 455 AQL 1.5)	0.65 AQL Before Packaging
Viral Penetration	Tested and passed, in accordance with ASTM F 1671
Chemical Resistance	The resistance to some chemicals has been assessed in accordance with EN 374-3 Results and recommendations for use with chemicals can be obtained on request
Sterilization	Gamma Radiation, Sterility Assurance Level 10 ⁻⁶
Expiration Date	35 Months from Date of Manufacture Manufacture and Expiration Dates are printed on packaging (YYYY-MM format)
Packaging	Polyethylene peel pouch material protects product during transport and storage from moisture and ozone and prevents tearing when opening to maintain a sterile environment. Long pack configuration for easier aseptic donning.
Storage Recommendations	Protect from freezing. Avoid excessive heat. Keep dry. Product should be shielded from direct sunlight, fluorescent lighting, X-rays, moisture and ozone. Do not store in temperatures above 40°C.
Country of Origin	Malaysia
