**WARRANTY**

All warming cabinets manufactured by MAC Medical, Inc. will carry a lifetime guarantee against product craftsmanship, 1-year labor and 2-year parts guarantee. The factory will service all units without cost to the buyer for 1-year from shipment. After the 1-year period, replacement of a defective part (labor) will be at buyer’s expense. We will exchange all defective parts at no cost to the buyer for a period of 2-years from shipment. All defective parts must be returned within 30 days to ensure proper credit. An RMA from MAC Medical, Inc. must be obtained prior to items return.
SS SERIES SURGICAL SCRUB SINKS

Manufactured of the highest quality possible, Mac Medical delivers a full line of hands free, fully functional Surgical Scrub Sinks. Combining the best materials, components, and craftsmanship available, each sink is hand built to the customer’s specific need.

SS Series Scrub Sink Standard Features:
• Deep sloping basin
• Adjustable thermostatic controlled pressure regulating mixing valve, one per station
• Check stop strainers for ease of maintenance
• High mount swivel gooseneck spout with adjustable swivel spray aerator
• Flow control valve
• Backflow preventers
• Infrared sinks are equipped with a 24 volt plug in transformer
• Splash screen dividers with double and triple station sinks
• Main support and Z-brackets (in-wall support optional)
• 304 stainless steel polished and ground to a #4 finish

Knee Operated Surgical Scrub Sinks:
The operation of these sinks is simple. Press the knee panel one time to activate water flow. Press again to stop flow. The soap panel works in a pumping fashion with soap being dispensed through a stainless steel spout located near the mixing valve. The base has been designed to accommodate gallon sized soap container storage behind the knee panels.

Infrared Operated Surgical Scrub Sinks:
The infrared sensor is located on the front of each station and is activated by the user’s waist. There is a 2 second on/off delay for water flow. The sensor range is 12” to 14”. Both features combined eliminate activation by simply passing by. Optional knee operated or foot control soap pumps are available.

Deluxe Surgical Scrub Sinks:
Built as a hybrid, these sinks have dual controls. Equipped with infrared operated water control as well as a manual bypass for knee operated water control. The main operation is via the infrared sensor located between the knee panels. The knee operation for water control is on standby as a backup. In addition the sink is also equipped with knee operated soap.
SS Series Surgical Scrub Sinks Features and Options:

- Stainless Steel Access Panels
- Tall Swivel Gooseneck Spout
- Stainless Steel Soap Spout
- Adjustable Thermostatic Mixing Valve
- Splash Screen Divider
- Digital Scrub Timer
