Founded in 1910, Medline is the largest privately held manufacturer and distributor of health care supplies in the United States, with 2013 sales over $5.8 billion. We manufacture and distribute over 350,000 products to customers in health care; life science and research institutions; pharmaceutical organizations; and tissue and blood banks. Medline has a growing network of 57 manufacturing and distribution centers worldwide to fit your specific delivery needs.
