

COLOR-CODED PACKAGING SYSTEM

Saves time and improves efficiency.

Surgical Supply Management Solutions

Pulling the wrong surgical pack

COSTS YOUR FACILITY MORE THAN RESOURCES.

When your O.R. is moving quickly, picking errors are bound to happen. And when they do, professionals lose focus, resources are wasted and productivity suffers.

Stop the confusion, save valuable time and ensure patient safety. Discover the Color-Coded Packaging System from Medline.

From color-coded labels to high-legibility inserts, this is intuitive visual design at its best: fast, at-a-glance picking for accurate, off-the-shelf access to the right pack for the right procedure. No more guessing. Just results. **This is your O.R. more powerful.**

EMPOWER YOUR TEAM WITH COLOR-CODED CONFIDENCE.

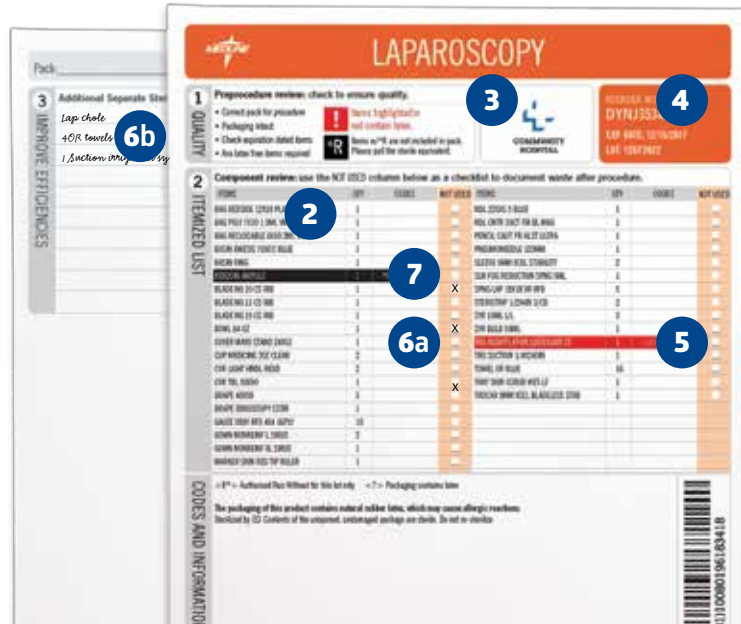

Our Color-Coded Packaging System transforms the way surgical packs are stocked and pulled, improving O.R. efficiencies and shaving minutes off valuable prep time.

1

Check out our easy-to-scan insert design:

1. Choice of color and bold labeling make it simple to identify pack-type
2. Alphabetical contents list verifies what's inside before opening pack
3. Add your hospital logo to customize design
4. Expiration date is clearly indicated to ensure patient safety
5. Latex content is noted in red to help prevent accidental exposure
6. Component Utilization tool documents unused items that may be eliminated from the pack and/or any additional items that should be included
7. Any item not included is noted in black so you'll know what items you need to pick separately

Defines surgical category by color

Shelf labels indicate specific procedure in coordinating colors

Shelf liners help prevent tears in outer pouch, ensuring sterility and reducing waste

BRILLIANT ORGANIZATION. BIG RESULTS.

Put the Color-Coded Packaging System* to work for your team.

- » **Increase** the ease and efficiency of stocking and pulling
- » **Prevent** the hassle and expense of picking the wrong pack
- » **Reduce** the risk of accidental latex exposure
- » **Support** lean O.R. objectives
- » **Improve** productivity and room turnover times
- » **Keep** everyone focused on the procedure at hand

FAST 5: ANSWERS TO YOUR QUESTIONS.

1.

Why do I need the Medline Color-Coded Packaging System?

This simple color-coded system transforms the way surgical packs are organized for faster, more efficient pulling and stocking. It's cost effective, saves time, reduces picking errors and helps keep patients and staff safe.

2.

What makes it so unique?

The Medline Color-Coded Packaging System is intuitive visual design at its best. Simple and efficient, your surgical packs will stay organized for fast, accurate pulling every time.

3.

How do I train my team to use color-coded packaging?

We'll show your team how easy it is to use the system– from color-coded pack labels to inserts and shelf liners.

4.

How do I coordinate my surgical packs by color?

Our color-coded system includes 24 unique colors so you can color code your surgical packs by service or by pack. Contact your Medline Representative for help selecting colors using our online pack management tool MedPack.

5.

Can Medline color code my custom pack shelving?

Yes. Beyond color coding your packs, we also provide color-coded signage for pack shelving. The benefit: it's another visual indicator to help your staff stock and pick cases more accurately in less time.

Ask your Medline Representative about the Medline Color-Coded Packaging System today or visit medline.com for more information.
