

A woman with dark hair tied back, wearing light blue scrubs, is looking intently at a laptop screen. Her hands are on the keyboard. The background is a bright, out-of-focus clinical setting.

MEDPACK ONLINE CUSTOM PACK MANAGEMENT

Improves visibility and control.

Surgical Supply Management Solutions

Staying in control of your surgical pack inventory

BENEFITS EVERYONE EVEN YOUR PATIENTS.

Managing surgical packs in a busy O.R. is not for the faint of heart. It's a demanding, sometimes overwhelming responsibility—one that requires constant vigilance, good communication skills and real-time responsiveness.

Staying in control and having the visibility to identify pack changes quickly is critical. You need to maintain and track inventory, reduce supply costs and maintain patient and staff safety.

MedPack technology answers the call. We put you in total control of your surgical pack information. Every day, 24/7.

The result? Open access to your supply chain. That means no unauthorized pack substitutions, no surprise service interruptions and total visibility to your custom pack inventory. **This is your O.R. more powerful.**

MEDPACK SIMPLIFIES CUSTOM PACK MANAGEMENT.

It's a convenient online source of information covering everything you need to know about your Medline surgical pack program. It's secure, easy to use and customizable to meet different users' needs just like the apps on a smart phone.

Use our apps or iViews to access information in ways you never could before:

- » Control pack inventory, including pack changes and add-ons
- » See every component in every pack—so you'll always know that the items inside are the components you ordered
- » Know when requested changes arrive into inventory
- » Track the history of changes to custom packs
- » Know where packs are in the production process
- » Customize your account to send the alerts you want, when you want
- » Identify latex components and latex-free alternatives
- » Find information on standardization, eco-friendly choices and more
- » Maintain control – all pack changes or add-ons must be approved by your eSignature

GREATER EFFICIENCY. BETTER SAFETY.

Not having the right surgical pack in stock can cause serious delays in O.R. start and turnover times. MedPack online tools help you manage smarter and faster, saving valuable time and helping to improve patient care.

- » **eBook offers instant visibility to all of your custom packs.** This virtual binder makes it easy to view detailed information.
- » **Logistical tools track inventory and usage.** Click on Supply Management for daily updates on inventory. Plus receive email alerts when demand spikes or usage drops.
- » **Financial tools help keep costs down** – whether you need to increase pack component standardization or monitor trend and spend statistics.

FAST 5: ANSWERS TO YOUR QUESTIONS.

1.

What is MedPack and how will it keep me in control?

MedPack is an easy-to-use online source of information and insights about your Medline surgical pack program. Convenient online tools help you manage pack inventory 24/7, track and control changes, monitor pack usage and more.

2.

What are the benefits of MedPack?

MedPack was created to help simplify pack management, cut costs in the O.R., improve productivity and ensure better patient/staff safety.

3.

How does MedPack help prevent unauthorized pack substitutions and cost "creep?"

MedPack provides simple online access to custom pack data. This state-of-the-art technology ensures that every pack change requires your approval so you'll never have to worry about unauthorized substitutions. And, once you lock-in our low pricing, you'll eliminate cost "creep."

4.

How much does MedPack cost?

As a Medline partner, MedPack technology is yours to use at no cost.

5.

Who will have access to MedPack online custom pack management?

It's up to you. Your Medline Representative will work with you to set up your users' information. Once completed, your MedPack Program Manager will conduct an interactive webinar to show you and your team how to access your custom pack information—anytime, anywhere.
